DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose an end connection for a prestressed concrete beam comprising: an end plate on both of the concrete sections that are to be joined, the end plates have holes disposed in an upper portion of their plates corresponding to an embedded sheath pipe in the concrete sections; steel brackets that are arranged perpendicular to the end plates; and coupled to one another with bracket coupling plates; a bottom connecting plate disposed on the lower ends of the steel brackets to connect the aligned brackets together; a sheath pipe is provided to connect the two end plate holes to correspond to the sheath pipes that are embedded in the concrete sections a prestressed strand disposed in the sheath pipe sections to provide a prestressing force on the concrete sections and finally, the entire connection embedded in concrete.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
